2. Programs

PROGRAM

Chinese Language

**Cross Border
E-commerce**

**International
Economy and Trade**

**Tourism
Management**

**Business English
(Business
Environment in
China)**

Chinese Language

The programs are for international students who are interested in improving their Chinese, deepening their understanding of Chinese culture or preparing for their further study in China. The program includes Chinese language courses at different levels so to meet the needs of all students. Meanwhile there are plenty of experiencing courses like papercuts, Calligraphy and so on to offer access to more traditional Chinese culture.

Cross Border E-commerce

With the rapidly developing e-business in Hangzhou, the program offers comprehensive experience to students. Through the program, students will learn about the basic methods and knowledge regarding to cross border e-commerce, be skilled in cross border e-commerce platform operation, after-sale service management and marketing, so as to meet the needs of business start-up or work in both local and international enterprises.

International Economy and Trade

The program is a local economy development and talent market oriented program, which is to develop international students into talents with knowledge in international economy and trade, basic methods and research skills, international economy and trade rules, and are qualified to work in international companies, institutions, government and other related fields. The program includes both in class study and internship, which will make students more competitive.

*Tourism Management program **aims to** cultivate international students to be interdisciplinary, application-oriented and international cultural tourism professionals, who are capable to work in foreign-related cultural tourism business and related economic management sectors. The program **objective** is to train international students' various abilities in Chinese language, contemporary Chinese politics, economy, culture and society, and to be familiar with the basic rules of international cultural tourism industry. **The graduates will be capable of** understanding international cultural tourism enterprise operation, international cultural tourism project planning and management, as well as cross-cultural communication and marketing.*

Business English (Business Environment in China)

In order to meet the demand of people from countries and regions along “the Belt and Road Initiative” routes to invest and develop in China, this major aims to cultivate international application-oriented talents with international vision, understanding of contemporary economic and trade development, familiarity with China’s business environment, mastery of theories, knowledge and skills in international economy and trade, practical ability to run international business, and cross-cultural communication competence. They are supposed to be able to use Chinese and English to operate international business in China.
